

Century 43mm Lens Accessories

for 43mm & 37mm front-threaded camera lenses

Century's HD Series offers quality professional lens accessories designed to help you go wider, reach further, and move in closer than the lens alone allows.

Century's superb optics provide the finest professional images. These state-of-the-art add-ons minimize chromatic aberrations and unwanted distortion and produce images that are ultrasharp edge to edge. Accessories attach directly onto the 43mm thread mount. Also included is a 37-to-43mm step up ring for adaptation to smaller front-threaded camcorders.

The Century 43mm accessories are ideal for Canon HV20/HV30 as well as other camcorders

.5X HD Wide Angle Adapter

OHD-05WA-43

Here is a low-cost, high-quality, wide-angle solution. The .5X Wide Angle Adapter offers a lightweight single-element design that allows the user to go 50% wider without noticeable distortion. It doubles the angle of view and allows close focusing — right up to the lens front—on many camcorders.

Allows partial zoom only.

.65X HD Wide Angle Converter

OHD-65CV-43

For a high resolution, wide angle of view with complete zoom-thru capabilities, add the .65X Wide Angle Converter to the camera lens front. Yields 35% wider angle of view across the zoom range, wide angle or telephoto.

.3X HD Ultra Fisheye Adapter

OHD-FEWA-43

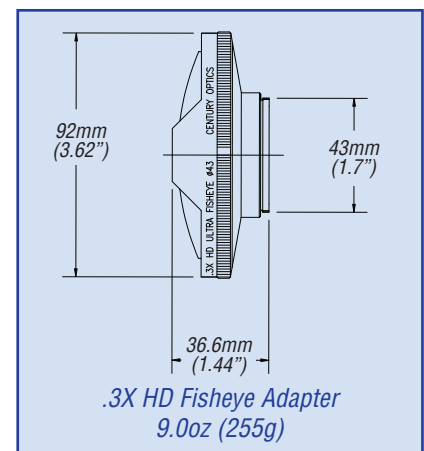

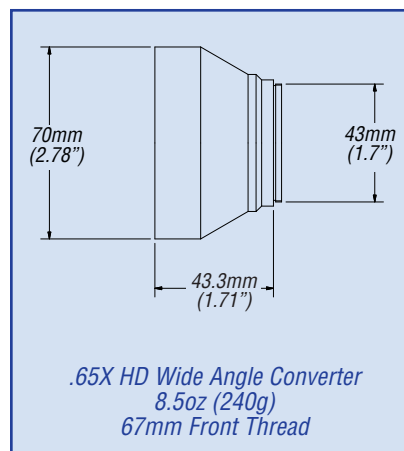

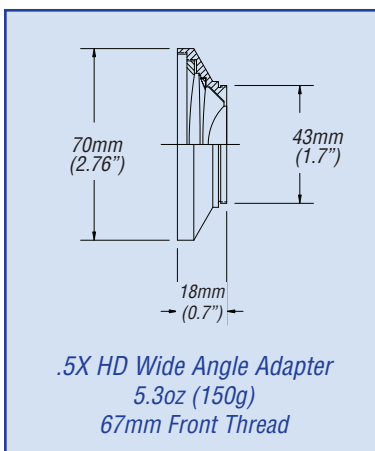

Fisheyes are known for their characteristic effect and awesome barrel distortion. They exaggerate depth by making nearby objects look closer and distant objects recede. Weighing only 9.0 ounces, this tiny powerhouse features an ingenious design that allows easier handling.

Specifications: Century Add-ons for Canon HV20/ HV30, Panasonic AG-HMC70U/ AG-HSC1U & JVC GZ-HD5/ GZ-HD6
