

“ WITH THOUSANDS OF  
LENS DESIGNS IN  
HAND, OUR OPTICAL  
ENGINEERING  
TEAM CAN  
GET THEIR  
ARMS  
AROUND  
YOUR OPTICAL  
PROBLEMS  
IMMEDIATELY.”

Stuart Singer  
Schneider Optics, Inc.  
Technical Director  
and Senior  
Optical Engineer

At Schneider, we have so many lens designs, lenses and optical components on our shelves -- and such vast OEM experience -- that chances are we have already made exactly what you need. So, why re-invent the wheel?

Whether you are in the earliest stages of the design process, or have just realized you forgot to order the optical component of the product you are about to manufacture, call Schneider today. Stuart and his engineering team will provide the information, assistance, evaluation units, optical prototypes, and production units you need, exactly when you need them.

For vision systems of every kind, having our arms around your optical requirements can make you a winner.
