Schneider Announces New 5 Megapixel Lenses

Renowned optics manufacturer, Schneider-Kreuznach, introduces the new 5 megapixel APO-Xenoplan 1.8/35mm lens for 2/3" CMOS/CCD sensors. With its apochromatic correction and broadband coating, this lens covers a wide spectral range--ideal for luminescence applications at 1200nm.

The new lens is optimized for high-resolution applications using 5 megapixel CCD and CMOS cameras, so small pixel sizes of 3.45 μ or less are easy to accommodate. Even at this range images are distinguished by their excellent contrast and sharpness.

The APO-Xenoplan 1.8/35mm, the latest in a series of versatile industry compliant lenses, is an excellent choice for pure measurement engineering, machine vision applications and medical technology. Designed for maximum endurance, its robust construction, equipped with stable screws to lock focus and iris settings, guarantee long-term stability for continuous operation.

For more information, contact Schneider Optics, Inc., tel: 800-228-1254, 818-766-3715; or 631-761-5000; email: industrial@schneideroptics.com, or visit www.schneideroptics.com.

####

Industrial optics business area:

Jos. Schneider Optische Werke GmbH develops, manufactures and distributes optical and precision components as well as assemblies for machine vision and other image processing applications. These premium optics solutions help system integrators and machine builders improve their image processing systems.

About the Schneider Group:

The Schneider Group specializes in developing and producing high-performance photographic lenses, cinema projection lenses, as well as industrial optics and precision mechanics. The group comprises Jos. Schneider Optische Werke, founded in Bad Kreuznach in 1913, and its subsidiaries Pentacon (Dresden), Schneider Kreuznach Isco Division (Göttingen), Schneider-Optics (New York, Los Angeles), Schneider Bando (Seoul), Schneider Asia Pacific (Hong Kong) and Schneider Optical Technologies (Shenzhen). The company's main brand is "Schneider-Kreuznach". It has around 640 employees worldwide, with 335 based in its German headquarters. For years now the group has been a world market leader in the areas of high-performance lenses.
