

True-Match Vari-ND Filters

The perfect choice for DSLR cameras with high ISO settings, it allows the user to select the lens f/stop and camera speed independent of ambient light conditions. Available in two options, a round thread-in single filter for ultimate ease of use, or as a filter kit with Schneider Optics' 4" Filter Holder which gives the ability to hold other 4x4 or 4x5.65 size filters.

This carefully matched set of filters work in combination to produce a density range from 1-1/3 stop loss to 11 stops of light loss. By selecting the best quality materials, Schneider variable ND offer 11 stops (ND3.3) attenuation with no blue color shift at maximum density which is a common problem with inferior and unmatched materials common in lesser variable ND filters.

The 77mm True-Match Vari-ND Thread-In is a single low profile filter with both True-Match Polarizing filters in the correct orientation for maximum ease of use and efficiency. The low profile ring prevents vignetting on most DSLR and Video Camera lenses. Step rings are available in common sizes to adapt the 77mm size to smaller lens thread diameters.

The True-Match Vari-ND Filter Kit is comprised of a screw-on 77mm True-Match Circular Polarizer (Non-Rotating) that mounts to the front of the camera lens, a 4x4 True-Match Linear Polarizer that slides into the Schneider 4" rotating Filter Holder with the 77mm W/A adapter ring. Also available in a 95mm kit size.

Step Rings are available for other lens diameters. These filters are available separately as an upgrade kit (77mm or 95mm) for those who already own a 4" Filter Holder or the Schneider Landscape Control Kit. Please inquire for stock codes and pricing.

Stock Code	Description	List Price
68-031177	77mm True-Match Vari-ND Thread-In	\$495
68-884405	77mm True-Match Vari-ND Kit Includes: 77mm True-Match Circular Polarizer (non-rotating), 4x4 True-Match Linear Polarizer, 4" Filter Holder, and 77mm Adapter Ring	\$579
68-884406	95mm True-Match Vari-ND Kit Includes: 95mm True-Match Circular Polarizer (non-rotating), 4x4 True-Match Linear Polarizer, 4" Filter Holder, and 95mm Adapter Ring	\$649
